REACH regulation (EC 1907/2006)

Dear Mr. Nitteberg,

as per REACH regulation (EC 1907/2006), Rübsamen & Herr is a downstream user.

The products we supply you with are articles as per REACH definition and do therefore not have to be registered.

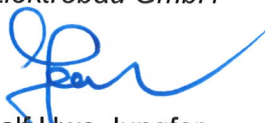

However, as it is in our own interest and to guarantee high product safety, we make a point of seeing REACH implemented and to make sure all relevant requirements are complied with.

As a matter of course, we shall get in touch with all our suppliers of chemicals and preparations used in our manufacturing processes. As these chemicals and preparations are of widely used and conventional nature, we expect our suppliers to either have automatically effected the registration of any relevant materials by now or to do so at a later point in time.

Should you have any further questions concerning the observation of REACH requirements in our company, please feel free to contact us at any time.

Best regards

*Rübsamen & Herr
Elektrobau GmbH*
